## Sharp Cut Made In Civil Defense **Fund Requests**

House Group Hits Lack Of 'Realistic' Plan; \$234,000 for District

The House Appropriations Committee today sent to the House a supplemental funds bill for an outlay of \$1,677,000,000 for several agencies after making an 88 per cent cut in requested Federal civil defense money and a 74 per cent cut in District civil defense

The committee report was sharply critical of the Federal civil defense program, claiming it failed to measure up to concepts laid down by Congress.

total of \$370,650. City officials had asked for an additional \$1,040,650. The sum of \$234,000 is for civil defense and \$136,650 is for the operation of the District Rent Control office

The committee also made a heavy cut in funds requested for the Bureau of Narcotics, recommending \$250,000 or \$150,000 less than the Treasury had requested.

Canfield Hits "Hatchet Jobs." The action brought an immediate protest from Representative Canfield, Republican, of New Jersey, who said "the committee performed two hatchet jobs today which I think are tragic." He referred to the huge slice in Federal civil defense requests and to money for increasing the staff of the Government narcotics agents. With enlargement of the narcotics staff, he said, the number will be brought back only to the number the bureau had in 1930.

The committee, headed by Rep-The statement was released by President Truman's veto a bill resentative Cannon, Democrat, of the Senate Armed Services and providing \$120 monthly pensions Missouri, said Congress recognized the need for a "strong civil defense connection with their investigation to certain veterans disabled from program" when it passed the Civil that in its report earlier this year on another supplemental approin matters of self-protection and the co-ordination of the civil de-The bill applies only to veterans fense efforts in the several States
